v1

Category breakdown

Documentation

3 of 4 baseline documentation files found.

85

Issues

75 issues analyzed; 75 open and 75 stale.

19.47

Activity

4 activity signals analyzed.

48

Ci Cd

SourceCraft did not grant access to this repository's CI/CD runs.

N/A

Security

SourceCraft AppSec denied access for the configured CLI identity; Security is excluded from the score.

N/A

Code Health

4 of 4 code-health engineering practices detected.

100

Priority recommendations

HIGH

Review stale issues

+8.08

Close obsolete issues or update their status, owner, and next action.

MEDIUM

Define code ownership

+3.46

Add CODEOWNERS and assign maintainers to important paths.

MEDIUM

Reduce contributor concentration

+3.46

Document contribution paths, label starter issues, and distribute ownership across maintainers.

MEDIUM

Improve merge request flow

+3

Use merge requests for meaningful changes and keep reviews moving to completion.

LOW

Establish a release cadence

+2.77

Publish a versioned release with concise notes and keep a repeatable release cadence.

LOW

Describe incomplete issues

+0.12

Add context, expected behavior, and acceptance criteria to empty issues.
